

GQ Series GQ 20A

Open Table Design
Marking System

Diverse.
Precise.
Easy to use.

Open table design, which gives you the maximum flexibility during your marking process. You can put many different sizes of workpieces on the table. With our focus finder system, pilot laser, easy to use software, motorized Z axis, your production process will be more efficient and productive. Besides, the open table design also makes it easier for you to integrate GQ 20A into your production line.
