bipol **Fi**

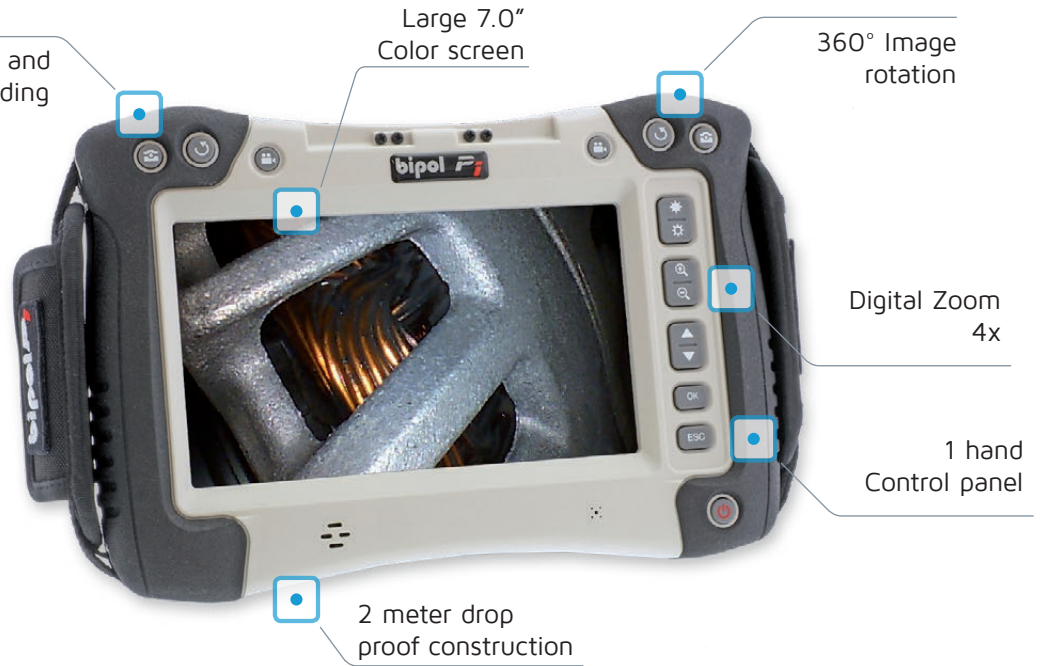

Rugged
Modular
Videoscope

www.bipol.fr

The BIPOL Videoscope P1 is a high resolution lightweight and rugged portable video endoscope.

Its Interchangeable video probes system in various diameters and lengths make of it a versatile remote visual inspection instrument for many sectors & industries.

12V car charger & Universal charging kit for worldwide use

Text annotation with virtual keyboard for easy file management

Optional wifi handle for handfree use of probes up to 30 meters

Work comfortably outside under the sunlight with the removable sunshield

7.0"

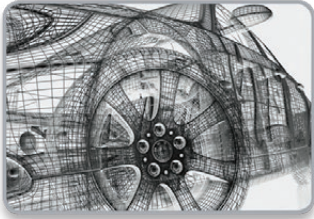

HIGH QUALITY IMAGE RECORDING

Record still images (JPEG up to 32 000) or video (AVI up to 500 hours) in high resolution on the 32 GB sd card provided. Transfer them easily to a computer for further analysis...

Features & benefits

- ✓ Water & Dust proof
- ✓ Left & righthanded use
- ✓ Rubber protection
- ✓ 4x Digital zoom
- ✓ Interchangeable probes
- ✓ Reduced repair costs

AUTOMOTIVE

Our P1 videoscope allows inspection of gearboxes, valves, running gears, combustion chambers. Detection of rust.

POWER GENERATION

Inspect windmill gearboxes, heat exchangers, pipes, valves in power plants, dams. Reduce downtimes and heavy dismantling in routine inspections.

Some Applications...

SECURITY FORCES

Contraband search in cars, trucks, boats. Night vision inspection of rooms, containers. Detection of drugs, merchandise or concealed weapons in ceilings, floors, hidden spaces.

INDUSTRY

Our P1 videoscope is ideal for inspection of weldings, technical tubes, machines, engines, pipes. Industrial & offshore maintenance.

Technical data...
